

Installation

To download and install, follow these steps:

1. Go to <https://www.google.com/inputtools/windows/> and select the Urdu by checking the checkboxes.

The screenshot shows the Google Input Tools on Windows website. The browser address bar is highlighted with a black box, containing the URL <https://www.google.com/inputtools/windows/>. The page title is "Google Input Tools on Windows". The main content area is divided into two columns. The left column contains a navigation menu with links for Overview, Features, Help, Installation, Configuration, Troubleshooting, Windows XP, Manage macros, and Canonical schemes. The right column contains the main content, which includes a description of the tool, a list of supported languages, and a "Choose your languages" section. In the "Choose your languages" section, the "Urdu" checkbox is checked and highlighted with a black box. Below the language selection, there is a checkbox for "I agree to the Google Terms of Service and Privacy Policy." which is also checked and highlighted with a black box. A blue "Download" button is visible below the agreement checkbox. The page also features a "Smart, easy to use and intuitive!" banner and a "Requires Windows 7/Vista/XP (32-bit/64-bit)" note.

Overview

Google Input Tools on Windows

Google Input Tools for Windows is an input method editor which allows users to enter text in any of the supported languages using a Latin (English / QWERTY) keyboard. Users can type a word the way it sounds using Latin characters and Google Input Tools for Windows will convert the word to its native script. Available input tools include transliteration, IME, and on-screen keyboards.

Google Input Tools for Windows is currently available for 22 different languages: Amharic, Arabic, Bengali, Persian, Greek, Gujarati, Hebrew, Hindi, Kannada, Malayalam, Marathi, Nepali, Oriya, Punjabi, Russian, Sanskrit, Serbian, Sinhala, Tamil, Telugu, Tigrinya and Urdu.
